PROPOSALS FOR BUILDING AN 1RON SEUTIONAL BALANUE DRY DOCK.

WASHINGTON, D. C., July 20, 1875.

Sealed Proposals indorsed "Proposals for Building on Iron Sectional Balance Dry Dock," will be received at the Navy Department until 12 o'clock m. on the 18th day of September next, from dry dock builders, manufacturers and mechanics acquainted with that kind of work, for furnishing the materials for, and the building of, two sections of an Iron Sectional Balance Dry Dock at the Navy Yard, Pensacola, Florida.

Said dock to be erected and used in a basin in said yard 328 feet in length and 10 17-100 feet in width.

Each section thereof to be of about the fellow-

Said dock to be creeted and used in a basin in said yard 388 feet in length and 110 77-100 feet in width.

Each section thereof to be of about the following dimensions, viz: Width, 108 feet; length, 35 feet 5 inches; depth 11 feet; and to have a displacement above its own weight, when completed, ready for use, of about 600 tons.

The general plans and specifications for the whole of this dock have been adopted, and may be seen and examined at the Navy Department. These plans and specifications are, however, adopted and assumed by the Government only as the general plans and specifications controlling the general character and dimensions of the dock, not as guaranteeing its strength, capacity and successful operation. But the contractor must assume and approve them to that extent, and will be himself sheld responsible that they are suitable and sufficient for the purpose desired, and also for the strength, capacity and successful operation of the dock, when built, for two years after it has been tested and found to be ready for use.

No increase of size and general dimensions will be permitted without the express sanction of the Department.

The contractor will also furnish, for one section, called the engine section, two upright beam engines and bollers, with all the necessary pumps, water tanks, shatting, gearing, machinery and attachments of sufficient strength and power to raise the dock of six sections, with a vessel of 3,200 tons weight upon it, in one hour.

The engines and bollers will be protected by a suitable house, to be 'suit of thespecial from.

The plans of the engines and bollers, with specifications in detail, must be approved by an ongineer of the United States navy, to be appointed by the Department for that duty.

The materials used in building said dock must be, in all its parts, of the best quality of beam, angle and plate charcoal from, and must be able to stand the regulation tests for strength and toughness of from used for building iron vessels of war.

The whole atructure will be built under the in-

spection of the superintendent appointed by the Department, who will have authority to reject any material or portion of the work not considered by him to be of preper quality and workmanby him to be of preper quality and workman-nhip.

The contractor will be required to give security in the amount of \$500,000, with not less than two surctice, who will furnish the usual certificates that they possess property free from incumbrance equal to twice the amount for which they are held as surctice, that he will do the work and construct the docks according to his contractin all respects, and that the same will be sufficient in strength and capacity, and will accomplish the purpose for which it is designed, as set out in this advertus-ment and in said contract, and that it will operate successfully for two years after it has been accept-ed for use.

The work will be completed and the two sections ready for use within five months from the date of signing the contract.

Psyments will be made in ten equal parts, as the work progresses, upen bills duly certified to by the superintendent on the part of the Government; the Government reserving twenty percent. (20) of the amount of each bill as additional security until the final completion and acceptance of the work.

All "straw bids" will be at once rejected, and the Department reserves the right to reject any bid from persons considered not competent to do the work, and all bids not believed to be for the interest of the Government; and, for the purpose of securing proper information on these points, a board of officers, consisting of one line officer, one engineer and one constructor, will be appointed by the Department to examine the bids, and investigate and report upon the experience and ability of the persons bidding, and the facilities at their command for properly executing the work required; and the Department will not a vard the centract to any one of whom such report port is not, in all respects, satisfactory.
